Future Skills Questionnaire

What is it?

A short, simple survey students complete to help the school understand their skills, confidence and awareness of future pathways. It is not a test just a tool to support your child's development.

How does it benefit my child?

- Guiding personalised careers support
- Tracking their progress over time
- Shaping activities such as employer visits, skills workshops and work experience
- Giving them a voice in planning their future

Why does my child complete it?

It helps us find out:

- What your child already feels confident about
- Where they may need more support
- What careers or pathways they're interested in

How can I support my child?

Encourage them to answer honestly, talk with them about their interests, and attend school careers events where possible.

What kind of questions are included ?

- Their knowledge of careers and routes like apprenticeships, college and university
- Their confidence in key skills
- Their interests and future plans

How is the information used?

Results help the school:

- Plan meaningful careers activities
- Provide targeted guidance
- Ensure all students receive high quality support

All responses are stored safely and used only for educational purposes.
